

Brightspace/WebAssign notes for 210 Calculus with Business Applications, 221
Calculus I
and 335 Differential Equations
Fall 2019

Students,

- You have access to the e-book for your course through Brightspace as a part of the Cengage Inclusive Access program. Go to the Brightspace page for your course and click on the WebAssign link.
- If you already have a WebAssign account, use it to log in.
- If you need to set up a WebAssign account, here are the instructions to do so: https://embed.widencdn.net/pdf/plus/cengage/rq0fkipokxo/gui_webassign-brightspace-stu-quick-guide.pdf?u=c8lcjz
- The Inclusive Access program gives you access to the e-book for the life of its edition, so if you need to repeat the course, or as you progress through the calculus sequence, you can opt out of the program (see below) in subsequent semesters and retain access to the text at no additional charge.
- An alternate plan offered by Cengage is called Cengage Unlimited, in which you pay a flat fee for a set period of time and have access to all of the Cengage texts during that time period. You can opt out of Inclusive Access (see below), and purchase Cengage Unlimited at <https://www.cengage.com/unlimited/>. This can be cost effective if you are using multiple Cengage texts in different classes. You can access WebAssign at <https://www.webassign.net/>
- To opt out of Inclusive Access, go to <http://uakron.edu/book>, print the form and follow the directions.
